

# Gender Report 2020-2021

Compiled by: Dr / Nadira Sobhy Mohamed

**Information, Documentary and Decision Support Center**

**Alexandria University**

## **Introduction**

Sustainable Development Strategy (Egypt's Vision 2030) entails a strategic vision, which is to provide a high quality education and training system for all, without discrimination. With this vision, students and trainees are provided with the necessary skills to help them think creatively and empower them technically and technologically; and contribute to the development of proud, creative, responsible and competitive citizens who accept diversity and differences, are proud of their country's history, and are eager to build its future and can complete with regional and international entities.

This report that provides data on the count of students, postgraduates, staff, assistant staff and employees.

These counts are used to monitor gender in Alexandria University and therefore, monitor the percentage of female each year, in order to keep pace with the international standards and to ensure that here is no gender disparity in women enrolment ratio at all levels.

All the data presented in this report is supplied by managers of from different department and are analyzed interpreted and presented by Information, Documentation and Decision Support Center.

## **Conclusions**

1. Women are well presented in all disciplines of the University. They have equal rights and foot to men in education rights, jobs, research and participation in all activities.
2. Women are included in senior and junior jobs at the administrative faculty and university levels.
3. The percentage of female students at the undergraduate level is higher than the percentage of male students, which shows the availability of learning opportunities for females.
4. The percentage of female students at the postgraduate holding is higher than the percentage of male students.
