

## University Dorms

Alexandria university has 5 dorms to support students with low income . These are the important castles and edifices at the University of Alexandria, for students of low income, and students from outside Alexandria city (expatriate students) to complete university education it serves a group of students who are expatriate students, equivalent to 7000 students annually.

The importance of this sector is due to the fact that it operates 24 hours a day and throughout the year, as it takes full care of students, providing them with accommodation and subsistence, in addition to recreational programs and targeted social, sports and cultural activities prepared by the competent authorities in university Dorms. Thus, the effective role of the services sector at the university is achieved in the care and support of the educational process.

Branches:

- Semoha Branch for boys
- Semoha Branch for girls
- Shatby Branch for girls
- Saba Pacha branch for boys
- Merghem Branch for boys

### Regulations of and organizing accommodation in university Dorms

- To be a regular student at the university at the first university level and transferred to the upper division.
- Students of low income
- Not be a resident of Alexandria Governorate.
- Not have been subjected to a criminal or disciplinary penalty from the university or college from the penalties stipulated in Article (126) of the Executive Regulations of the Universities Organizing Law in item (5) and thereafter, or from the university dorms throughout his study at the university and his residence in the university cities.
- Not be entitled to previous residence fees for university cities or any other entitlements.

## The establishment of university Dorms:

The foundation stone was laid for the university Dorms of Smouha students, "and it was dedicated at the time to students", and the city was for students in Shatby in 1954. The official opening and residence in the city of Smouha students was in January 1958, and the students of Shatby in December 1958. As for the new city of Smouha, which is designated for students' residence now, it was opened in 1975 .

**1. Accommodation:** The university dorms provide accommodation and food services to students, where the student resides in a room equipped with suitable furniture and equipped for the comfort of students in their sleep and study, within buildings prepared, designed and built specifically for student housing, and equipped with all the necessary comforts and luxuries for their living (water coolers - heaters for showers in bathrooms - heaters for drinks, etc.) - and the students are supervised throughout the day by a supervisory team divided into periods (morning - evening - night), and this team is well qualified to carry out supervisory tasks on students, as many courses and seminars are organized both inside and outside the university to strengthen the supervisory skills and experiences of the supervisory teams and keep pace with developments and new developments in the field of specialization.

**2. Nutrition:** Alexandria University gives special importance and care to the nutrition of university students by providing three meals a day to students, the components and preparation of which are supervised by specialized professors from the Faculty of Agriculture and the Institute of Public Health, so that the meals are balanced and equivalent in terms of the availability of what the student needs daily in terms of nutritional values, in addition to the diversity in the form, types and types of meals. To this end, the university provides all forms of support (especially financial) in providing nutritional elements to students, and this aspect of care is implemented by a specialized team of qualified and scientifically and practically trained nutrition specialists and technicians, assisted by a team of cooks and waiters to complete this task. In order to facilitate matters for students, a nutrition unit (restaurant and kitchen) has been established in all student housing cities.

### **3. Student Activities:**

- The university cities have a complete apparatus for student activities to provide care and recreational activities for students, whether sports, social, cultural or artistic. All cities have been equipped with places and facilities to practice activities of various types. There are playgrounds (with legal dimensions), a covered hall, table tennis

halls, art halls, a theater, fitness halls (for male students) and gyms (for female students), in addition to seminars held in university cities throughout the year for public figures, and trips implemented by university cities as part of the academic year plan. Student activities in university cities are supervised by a specialized and scientifically and training-qualified apparatus, whether for sports, artistic, cultural or social activities.

- **4. Other services:**

- • Medical units within each university city.
- • Mosques in all branches of university cities, where imams delegated by the Endowments Directorate perform rituals and Friday sermons.
