

### Interdisciplinary Research centers related

Center	Entity
Smart Infrastructure Research Center	Faculty of Engineering
Environmental Health Research & Studies Unit	High Institute of Public Health
Center of Excellence for Water Research and Studies	Public administration
Disaster and Crisis Unit (DCU)	Faculty of Physical Education for Girls
Climate Adaptation Research Center	Institute for Graduate Studies and Research

Project Management Unit - Projects  
Management Office (PMO)

Faculty of Engineering

## to sustainability - Alexandria University

Type	Provided Services
Research	<ul style="list-style-type: none"> <li>* Services related to scientific research and research projects.</li> <li>* Specialized scientific laboratories in the center's field of work.</li> <li>* Incubating research teams and managing their projects financially.</li> <li>* Providing trainings, scientific seminars, and consultations to help researchers apply for funding from different entities.</li> </ul>
Research/Service	<ul style="list-style-type: none"> <li>* Studying and identifying sources of pollution of natural water resources.</li> <li>* Analyzing samples of liquid and solid wastes, sludge and organic fertilizers to indicate their compliance with the standards of environmental protection laws, and analyzing sea water and determining the extent of its pollution in accordance with the Environmental Protection Law.</li> <li>* Conducting environmental assessment studies for projects and environmental review of existing facilities.</li> <li>* Providing technical studies and consultations in the field of reducing environmental pollution, and preparing the environmental record of companies and projects in industrial cities and tourist villages.</li> <li>* Organizing and implementing training courses for engineers and chemists in factories and sewage companies on the theories and techniques of treatment and control processes.</li> </ul>
Research/Service	<p>The center is based on three main components: Education, research and exchange, including graduate and undergraduate courses, workshops and training programs, research grants and scholarship funding for applied research in the field of water, and exchange programs between American and Egyptian universities.</p>
Research	<ul style="list-style-type: none"> <li>* Security and safety of the faculties facilities and facilities and all staff, faculty, students, and beneficiaries.</li> <li>* Conducting research, surveys, and scenarios for all types of disasters and crises related to the faculty.</li> <li>* Implementing all crisis and disaster plans and scenarios at the faculty.</li> </ul>
Research	<ul style="list-style-type: none"> <li>* Supporting research capacities in the field of climate change adaptation.</li> <li>* Creating a suitable environment for interaction and exchange of experiences between policy makers and researchers in the field of climate change adaptation.</li> <li>* Conducting economic and social studies aimed at assessing the various impacts of climate change and the best ways to adapt to these impacts.</li> </ul>

Research	<ul style="list-style-type: none"><li>* Follow up on all development plans at the university.</li><li>* Proposing development projects at the level of the university and its faculties.</li><li>* Review development projects.</li><li>* Contribute in supervising the implementation of development projects.</li><li>* Financial and technical supervision of other sub-units.</li><li>* Financial and technical supervision of projects.</li><li>* Finding sources of funding for development projects at the university level.</li></ul>
